WiFi

This boat is connected to our new unlimited WiFi. To connect to your onboard WiFi, you will need to go into your device's WiFi settings and select: "BarnesBrinkcraft WiFi"

You should then be taken to a login page that asks you to accept the Terms and Conditions.

HEATING CONTROL

YOUR BOAT IS EQUIPPED WITH THIS HEATING CONTROL

HOW TO WORK YOUR HEATING SYSTEM

SWITCH HEATING ON AS SHOWN ABOVE.

ALLOW 10 MINUTES FOR THE SYSTEM TO START AND HEAT TO COME THROUGH.

IF HEATER DOES NOT START AFTER 10 MINUTES IT MAY BE THAT THE TEMPERATURE IN THE BOAT IS HIGHER THAN SET.

SET THE TEMPERATURE TO MAXIMUM AND CHECK THE BOAT BATTERIES ARE CHARGED. IF NECESSARY, START ENGINE TO CHARGE BATTERIES.

IF THIS DOES NOT WORK PLEASE CALL THE ON CALL ENGINEER. 01603 782625

WHEN HEATER IS SWITCHED OFF IT WILL CONTINUE TO RUN FOR UP TO 10 MINUTES WHILE IT COOLS ITSELF DOWN.

Throttle Controls

This boat has lower steering position. Your boat will have the throttle controls pictured below.

The throttle controls the speed of the boat. The further forward you push it the faster it will go and the further back you pull it the faster it will go in reverse.

How to start your boat:

1. check your throttle is in neutral. If your boat has dual control check both throttles are in neutral. You can check this by making sure both the small triangle and notch on the inside on the throttle are lined up.
2. Put keys in ignition and turn.
3. If there is a start button next the ignition, push it to start the boat and both engine lights will come on. (The top two lights) If they don't come on it mean the boat is probably not in neutral. Check this at try again.
4. Press 'Command' on the controls you will be using (either upper or lower helm). You'll need to push the button for 1 second, and you will see the blue light come on above the command button.
5. The 'Warm/Sync' light will now be flashing. This means the gear control is disengaged. If you push the throttle forward it will rev the engine without moving.
6. Push the 'Warm/Sync' button (for 1 second) and the gear will be engaged. You can now drive the boat with the throttle.
7. Before untying the and leaving the moorings test the throttle is working in forward and reverse by gently pushing the throttle slightly in both directions. Once you're confident the boat is responding to the throttle you can untie from the moorings and head off.

If you are not sure how to operate the boat or have any other concerns, please call our team (01603 782625).
